

## Global POWERPLAY in OPTICAL COATINGS and SOLUTIONS

### Upcoming Events

#### SPIE Astronomical Telescopes + Instrumental, Montréal, July 19 - 21

SPIE Astronomical Telescopes + Instrumental is the most valuable technical event for ground-based, airborne, and space-based telescopes, and their supporting instrumentation. Visit our booth to discover the unique solutions and the wide variety of applications that optical components allow. [Learn more](#)

#### Automation Taipei, Taiwan, August 24- 27

We have the pleasure of welcoming you to our new Materion Balzers Optics booth (I804) to discover the unique solutions and the wide variety of applications that optical components allow. We look forward to welcoming you as our guest. [Learn more](#)

[More Events](#)

### Recent Events

#### analytica, Munich

Our team recently attended the in-person analytica tradeshow, the world's leading trade fair for laboratory technology, analysis, biotechnology and analytica conference from June 21 - 24 where they connected with industry experts, customers, and business partners. The MBO team enjoyed many quality conversations with attendees and customers.

#### Product Demos

Dr. Christian Katzer and Dr. Stefan Gliech from Materion Balzers Optics Jena presented two speeches on:

[High End Optical Filters: Challenges and Solutions to Optimizing Fluorescence Analysis](#)

[UV Filters and their Applications](#)

### Updated market segment brochure "Automotive" - available now

Materion Balzers Optics introduces optical solutions for the Automotive industry. Our optical components are designed to improve the safety and the comfort of driving by guiding, reflecting, selecting and altering light. The brochure provides an excellent overview of the different application possibilities. [Learn more](#)

### Sales and Business Development News

#### Our Global Customer Projects Team is Expanding

We are pleased to announce that Marine Graas has joined us as our new Customer Project Manager. Marine is an experienced project leader from the Automotive Industry and she will strengthen our ability to drive your future optics product design from prototyping to industrial production. Her structured approach to the program on hand and dedication to deadlines are key to serving our customers with the innovative solutions that enable their business opportunities. We are excited to have Marine on our team and are looking forward to your next optical challenge.
